Join Supervisor Ramos for a free Community Forum

MORONGO BASIN-October 14, 2014: Supervisor Ramos invites the residents of the Morongo Basin to join him at the Community Vital Signs next community forum in Joshua Tree on October 28, 2014.

This free community forum is meant to allow residents the opportunity to partner with the Community Vital Signs Initiative to help transform the County of San Bernardino into a healthier place to live, work, learn, and play.

"I am looking forward to working with the residents of the Morongo Basin to address any issues related to the state of health and wellness in our community," Supervisor Ramos stated. "Community input is vital in this process and I hope to see a large number of residents participating in this dialogue. This year, the Third District Forum will be held in Joshua Tree in order to reach the more remote communities which are often the most in need of additional resources."

The Community Vital Signs is a community-driven effort in partnership with the County of San Bernardino to establish a health improvement framework. More information on the Community Vital Signs Initiative can be found at <http://communityvitalsigns.org/>.

The Third District Community Forum will be held on Tuesday, October 28, 2014 from 2 p.m. to 4 p.m. at the Joshua Tree Community Center, located at 6171 Sunburst Ave., Joshua Tree. RSVP at <http://www.eventbrite.com/e/community-vital-signs-forum-3rd-district-tickets-13454329261>.
